## Welcome to Back Bay Accounting Software Consultants

**Back Bay** is a full-service accounting software company located in Upstate (Albany) New York. Back Bay currently services clients throughout the Northeast including New York, New Jersey, Massachusetts, Maine, Vermont and New Hampshire. We have aligned ourselves with two of the world's leading accounting software companies including **Sage Software** and **Intuit** to assure our clients of an accounting software solution that meets their needs and exceeds all expectations.

We are a full-service, business system consulting company that specializes in the design, implementation and support of three of the industry's leading accounting software products. Back Bay is proud to be aligned with three of the world's leading accounting software companies including Sage Software, Intuit (QuickBooks) and Microsoft.

### Experience is Critical

Foremost in business and accounting software for over ten years, Back Bay has provided our clients with customized accounting software options utilizing 'off the shelf' accounting software applications. We use the tools available through the software and our own experience as accountants, network engineers and programmers to create solutions that work for our clients. Providing a high level of consistent, reliable customer service is our trademark in the industry.

### One Firm, Two Top Software Applications

Back Bay is the Capital District's largest Sage MAS90 & MAS200 ERP Authorized Reseller. For five straight years Back Bay has been honored by Sage with its Presidential Reseller distinction.

Back Bay is recognized by Intuit as a Certified QuickBooks ProAdvisor. We adhere to annual competency exams administered by QuickBooks to remain leaders in our field as qualified advisors for this popular software application. Our experience with all QuickBooks versions including Enterprise and Point of Sale broadens our ability to match prospective clients with the proper accounting software application.
